TITLE: SELF-ADHESIVE WIG FLEXIBLE ELEMENT AND WIG EQUIPPED WITH SAME

Amendment B: CLAIM AMENDMENTS

Claims 1 - 18 (canceled).

19. (new) A wig assembly comprising:

a cap having an inside surface and a perimeter edge, said cap having a shape suitable for fitting on a human head;

a first flexible fabric strip affixed along said inside surface at said perimeter edge so as to extend around said cap, said first flexible fabric strip having an inside surface coated with a film of polysiloxane;

a plurality of second flexible fabric strips extending from said first flexible fabric strip and affixed along said inside surface of said cap, said plurality of second flexible fabric strips having an inside surface coated with a film of polysiloxane, said first flexible fabric strip and said plurality second flexible fabric strips being formed of an similar elastic material; and

a plurality of wefts of hair affixed to at least some of said first and second flexible fabric strips.

20. (new) The cap assembly of Claim 19, each of said first and second flexible fabric strips being stretchable end-to-end and side-to-side.

21. (new) The cap assembly of Claim 19, each of the films of polysiloxane having a weight of between 100 and 200 g/m².

22. (new) The cap assembly of Claim 19, the films of polysiloxane being a single-component polysiloxane.

23. (new) The cap assembly of Claim 18, the films of polysiloxane being a solvent-free polysiloxane.

24. (new) The cap assembly of Claim 19, said plurality of wefts of hair being implanted directly onto the first and second flexible fabric strips.
